Reviews

This publication will be worth purchasing. It really is written in simple terms instead of difficult to understand. It has been designed in an exceptionally simple way and is particularly only right after I finished reading this ebook in which basically modified me, alter the way I believe.

(Prof. Loyce Runolfsson Jr.)

A TREATISE ON HIGHWAY CONSTRUCTION DESIGNED AS A TEXT-BOOK AND WORK OF REFERENCE FOR ALL WHO MAY BE ENGAGED IN THE LOCATION, CONSTRUCTION, OR MAINTENANCE OF ROADS, STREETS, AND PAVEMENTS

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 214 pages. Dimensions: 9.7in. x 7.4in. x 0.5in. This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1895 edition. Excerpt: . . . it may be mended. It is always below par. When heavy rain falls it is seriously damaged. CHAPTER XIII. EARTH-WORK. 627. Earth-work. --The term earth-work is applied to all the operations performed in the making of the excavations and embankments to prepare them for receiving the road-covering. In its widest sense it comprehends work in rock as well as in the looser material of the earth's crust. 628. Equalizing Earth-work is a term applied to the process of so adjusting the formation or sub-grade level of an interred work that the earth from the cuttings shall be as nearly as possible sufficient to make the embankments and no more. The art of making this adjustment by the eye upon a profile of the ground with sufficient accuracy is soon acquired by practice. In most cases it is essential to economy in the cost of the work. For any surplus of embankment over cutting must be made up by borrowing, and the earth from any surplus of cutting over embankment must be wasted, both of these operations involve additional cost for labor and land. But cases sometimes occur in which it is more economical to make an embankment from borrow-pits close at hand than to bring the necessary material from a far-distant cutting on the line of the works, or in which it is more economical to waste part of the material from a cutting than to send it to a far-distant embankment on the...
