Not illustrated. 1905 Excerpt: .of the organs of sense and of the physique, that is, physical inspection.) (b) Schools. 3. That the hygienic control of public elementary and of other public schools should devolve on the medical officer of health of the district. (This is intended to embrace both hygienic inspection and sanitary inspection.) 4. That the standard of cubic space in all schools should be raised to the maximum at present existing. 5. That a standard of purity of air in schools would be of great assistance. 6. That schools claiming grants should be required to produce a detailed report from the medical officer of health as to their sanitary condition on a form to be approved, showing that they are in a sanitary condition. (This is intended to embrace both hygienic and sanitary conditions.) (c) Scholars And Schools. 7. That the medical officer of health should be required to record the action taken by his department in regard to schools, and to forward annually to the Board of Education such portions of his report as relate to this subject. 8. That the Board of Education should secure a skilled medical advisor to co-ordinate the sanitary regulations of schools, and to organise a code of preventive measures applicable to schools. The Royal Sanitary Institute, for the purpose of its examination in hygiene in its bearing on school life, has elaborated a syllabus, the first part of which embraces personal hygiene including physiology, and the second part, hygiene of schools. This...
