## PHYTOCHEMICAL AND BIOLOGICAL INVESTIGATIONS OF THUNBERGIA GRANDIFLORA

DOWNLOAD

To download **Phytochemical and Biological Investigations of Thunbergia Grandiflora** eBook, make sure you refer to the web link below and save the document or gain access to additional information which might be related to PHYTOCHEMICAL AND BIOLOGICAL INVESTIGATIONS OF THUNBERGIA GRANDIFLORA book.

LAP Lambert Academic Publishing. Paperback. Book Condition: New. Paperback. 112 pages. Dimensions: 8.7in. x 5.9in. x 0.3in. *Thunbergia grandiflora* (Acanthaceae) has been investigated for isolation of its secondary metabolites and evaluation of biological activities of the crude extractive. One compound had been isolated, which was identified by extensive analyses of resolution NMR spectral data. The powdered leaf of *T. grandiflora* was extracted separately with methanol. The solid extract was then subjected to vacuum liquid chromatography (VLC). Repeated chromatographic separation and purification the leaves of *Thunbergia grandiflora* afforded one flavonoid named 5 hydroxy-4, 6, 7- trimethoxy flavone, C<sub>18</sub>H<sub>16</sub>O<sub>6</sub>. The Methanolic crude extract of *Thunbergia grandiflora* showed moderate analgesic activity. Out of all the samples only chloroform fraction methanolic crude extract were appeared mild potent in terms of both zone of inhibition and spectrum of activity against some gram positive, gram negative bacteria and fungi. In antidiarrhoeal test and brine shrimp lethality bioassay, hexane, carbon tetrachloride, chloroform and aqueous fractions exhibited insignificant activities whereas Carbon tetra chloride fraction showed some hypoglycemic effect at a dose of 300 mg/kg body weight compared to control group. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
