FEEDING CHINA'S LITTLE EMPERORS: FOOD, CHILDREN AND SOCIAL CHANGE

Stanford University Press. Paperback. Book Condition: new. BRAND NEW, Feeding China's Little Emperors: Food, Children and Social Change, Jun Jing, Until recently, Chinese children ate what their parents fed them and were not permitted to influence, much less dictate, their own diet. The situation today is radically different, especially in cities and prosperous villages, as a result of a notable increase in people's income and a fast-growing consumer culture. Chinese children, with spending money in their pockets, arguably have become the most determined consumers - usually of snack foods, soft drinks, and fast foods from such Western outlets as McDonald's and Kentucky Fried Chicken. With many children, especially pampered only children, now controlling not only their own but also their family's choice of staples, snacks, and restaurants, a major reformation in the concept of childhood is occurring in China. This book focuses on how the transformation of children's food habits, the result of China's transition to a market economy and its integration into the global economic arena, has changed the intimate relationship of childhood, parenthood, and family life. Since the early 1980s, a drastic decline in fertility and a steady rise in family income have been accompanied by a profusion of new products successfully advertised on television and in other media as "children's food." This commercialization of children's diet has become so pervasive that even children in remote villages surprise their parents with demands for particular trendy foods and soft drinks. Many Chinese parents, reared very differently, anxiously question whether their children are eating well and growing up healthy. The contributors to this book, drawn from the fields of anthropology, sociology, political economy, and nutrition, examine a wide variety of topics: the effects of new foods on children's health; the consumption of "prestige" foods; the social implications of commercialized children's...
