

## Calculation

Filesize: 3.04 MB

### ***Reviews***

*Definitely one of the best ebook We have possibly go through. It usually does not charge a lot of. I am just pleased to inform you that this is actually the greatest ebook i have got study in my own lifestyle and may be he greatest publication for actually.*

*(Ms. Patsy D'Amore III)*

## CALCULATION

DOWNLOAD

To download **Calculation** eBook, make sure you refer to the web link under and download the ebook or have accessibility to other information which are relevant to CALCULATION book.

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 153 Publisher: Higher Education Press Pub. Date :2008-1-1. This book is for the calculation of higher education professional courses like engineering written materials. This book is divided into six chapters. which mainly include the introduction. numerical solution of nonlinear equations. numerical solution of linear equations. interpolation. numerical integration of ordinary differential equations and numerical solution of initial value problems. The materials to introduce the general numerical algorithm based on the content while the introduction of modern algorithm. algorithm theory. the book not only focus on rigor. but also highlight the original ideas of algorithm design and implementation techniques. so that the algorithm to form an integrated theory and algorithms. This book can serve as the professional colleges of engineering materials class. but also for scientists and engineering officers. Contents: Introduction Chapter I 1.1 Introduction 1.2 numerical algorithms prior knowledge of a second 1.3 Exercises Chapter error of numerical solution of nonlinear equations dichotomy 2.1 2.2 jacobi iterative method 2.3 newton iterative method to accelerate iterative 2.4 method of Problem 2 of Chapter III of numerical solution of linear equations 3.1 jacobi iterative method 3.2 gauss-seidel iteration over-relaxation iteration method 3.3 3.4 the convergence of iterative methods 3.5 gauss elimination method 3.6 Triangle decomposition method 3.8 3.7 Error analysis of catch-up exercises three interpolation methods Chapter 4.1 4.2 lagrange polynomial interpolation problem of 4.3 divided difference interpolation formula and the differential 4.4 newton interpolation formula section 4.5 4.6 cubic spline interpolation formula least-squares method of interpolation 4.7 Exercises Chapter four numerical integration of mechanical quadrature formula 5.1 5.2 newton-cotes variable step formula 5.3 5.4 gauss quadrature formula quadrature formula based exercises five ordinary differential equations Chapter VI of...
