Jaico Publishing House, Delhi, India. Softcover. Book Condition: New. In The Laws Of The Spirit World, author Khorshed Bhavnagri talks about spirituality, and how people should lead life on earth. The book delves into many philosophical and spiritual realms such as life-after-death, good versus evil, and freewill. Bhavnagri was inspired to write this book after her two sons, Vispi and Rato, were killed in a fatal car crash on February 22, 1980. A month after her sons passing, the author claims that she received messages from her boys asking her to communicate with them through automatic writing. The author further states that her sons were trying to guide her through her mission on Earth, which was to spread spirituality and to stay on God's path. Through telepathy and automatic writing, Bhavnagri put together the contents of The Laws Of The Spirit World. According to the The Laws Of The Spirit World, there are seven realms of existence in the spiritual domain. The first three realms are similar to Hell, and the point is to progress towards Heaven. The text examines questions such as does a god-fearing person ever try to fool god? and what is a good deed? The author also stipulates that on Earth, evil doers have no recollection of their sins. However, after death, these individuals have to constantly confront the memories of their sins. After reading The Laws Of The Spiritual World, readers will be forced to rethink their position on concepts such as god, free will, and the meaning of life. Printed Pages: 360.
