Contradictory theories are urged and advocated; legislation appears to be only a series of experiments and government a continued struggle; and if men fall into their proper places, and communities are on the whole orderly and happy, it seems to be evidently owing, not so much to the influence of civil institutions, or the operations of reason and conscience, as to the hand of God guiding men s movements through the instinctive tendencies of their nature. As the human frame is constantly changing its particles but preserving its identity by something not subject to the laws of matter, so society is constantly changing its members, but preserving its identity. It is another, and yet the same. About the Publisher Forgotten Books publishes hundreds of...
