

Systems Analysis and Simulation II. Vol.II

Filesize: 3.2 MB

Reviews

*The most effective pdf i possibly read. It is amongst the most amazing publication i actually have go through. You are going to like the way the author publish this pdf.
(Chelsea Durgan PhD)*

SYSTEMS ANALYSIS AND SIMULATION II. VOL.II

To get **Systems Analysis and Simulation II. Vol.II** eBook, you should click the hyperlink beneath and download the ebook or have access to other information that are in conjunction with SYSTEMS ANALYSIS AND SIMULATION II. VOL.II ebook.

Book Condition: New. Publisher/Verlag: Springer, Berlin | Applications Proceedings of the International Symposium held in Berlin, September 12-16, 1988 | Proceedings of the International Symposium held in Berlin, September 12-16, 1988 | The present volume contains the papers which were accepted for presentation at the 3rd International Symposium for Systems Analysis and Simulation held in Berlin (GDR), September 12-16, 1988. It is already a tradition to meet a broad international community of experts in systems analysis, modelling and simulation at this symposium. This fact shows the requirements for a forum of presentation and discussion of new developments and applications of modelling and simulation in systems analysis. To realize the great interest in this field one has to take into consideration the developed role of computer simulation as a powerful tool of problem solving. More and more areas in sciences and production have been investigated by mathematical models and computer simulation. Biological sciences and social sciences are even by now influenced by this trend. The model use on the computer has been very much improved in decision support systems. Parallel simulation will provide drastic shortening of computing time. Parallel simulation and model based decision support systems are brought in the focus of international activities. Numerical mathematics, systems theory and control sciences provide with algorithms supporting the modelling process itself based on simulation or analytic methods. Such simulation systems equipped with tools for modelling and graphics for representing results are real model support systems. A new important impact comes from artificial intelligence by knowledge processing. Expert systems may help decision making in case of missing mathematical models. Expert systems may also support teaching and using simulation systems. | 1. Complex Systems Analysis for Environmental Problems.- 1.1. Basic Problems.- Review of Applied Informatics in Environmental Protection.- Application of Optimal Control Methods to Simulation...
