iUniverse, United States, 2007. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.What this book is about, pure and simple is the common courtesies associated with urinating at the convenient protuberances called urinals provided for men at public places. The instructional part of this book is a man-to-man tutorial. While some of the observations and advice contained in this book may seem obvious to the female reader and to some male readers, there is an apparent lack of knowledge on this subject resident in the general male population. Urination Etiquette will provide you with tips and everyday wisdom using words, stick men, pictures and anecdotal evidence from a certified master user of urinals. All the tools necessary are provided as a guide for training so you eventually become a decent member of the male urinating public when visiting the restrooms of the world. You will find tips of all kinds from stepping up to pulling it out. And it also contains instructional advice on avoiding the secret sex signals in public restrooms that may inadvertently draw unwanted attention to you.
