Excerpt: . . . though skilled, were proverbially low paid, he replied that they were an exception and not important enough to count. The truth was, of course, that his statement was not a law at all, but a mere rule-- a general statement of facts as they happen to exist, not an explanation of them. The so-called practical man takes his stand on rules, the scientist abides by principles. This is the great distinction between them and this is why they so little comprehend each other. The practical man has to do with events. Events or phenomena are the result of laws acting in combination. It is the business of the theorist to extricate and study these laws separately. The practical man finds the concrete fact, a synthesis of the numerous forces behind them. The scientist is bent on analysis. We all know how the synthesis of laws...

Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.
