Language: English Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Education: Its Elementary Principles, Founded on the Nature of Man The importance of the subject on which this work treats, the wide popularity of its author, and the universal approbation with which it has been received both in England and America, are some of the reasons of its present publication. The real merits of the work cannot be represented in its preface. It must be read and re-read to be fully appreciated, and in order to simplify and render it still more practical we have added an Appendix in which will be found an illustrated description of the Temperaments, together with a brief analysis of all the Phrenological Faculties, which are also amply illustrated, giving a general view of the Science of Phrenology. Besides having enlarged the work, we have reduced its price, and so changed its form as to render it accessible to all. Parents and Teachers, especially, will find it invaluable, although great benefit may be derived from it by every individual capable of comprehending the magnitude of its principles.
