IN UNDER ONE HOUR. . . FOR UNDER 20 teaches you, in easy steps, how to create a glow-in-the-dark, three dimensional star effect on ceilings and walls. At first, this was an idea for just childrens bedrooms. . . and they do love it. But adults love the effect too. Just imagine yourself flopping into bed after a hard day. You switch off the lights. Then you notice a few sort-of vague stars above you. As your eyes become accustomed to the darkness, it looks as if your bedroom ceiling has been lifted off. Youre gazing at the most beautiful starlit sky. You are going to sleep under the stars. This little book explains how photo-luminescence works and how you can create the glow-in-the-dark star effect using inexpensive, specialist paints, and techniques not much published until now. Youll learn how to create the complete, accurate, starry Northern night sky, in addition to The Milky Way, Comets and Shooting stars. Everyone loves the glow-in-the-dark star effect which is. . . soothing, romantic,...

Reviews

This publication may be really worth a go through, and a lot better than other. It really is written in simple terms and never difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.
